

DID YOU KNOW?

CLEANING IS A CRITICAL ELEMENT

IN PROTECTING & EXTENDING THE LIFE OF YOUR SCREEN

NEVER USE PAPER TOWELS OR GENERAL PURPOSE CLEANING RAGS TO CLEAN A SCREEN. IT'S ONE OF THE LEADING CAUSES OF DAMAGE

HOW TO SAFELY CLEAN YOUR SCREEN

1. GET A BERKSHIRE MICROFIBER WIPE.
2. PREPARE THE SCREEN - TURN OFF AND UPLUG THE DEVICE. MAKE SURE IT'S COOL TO THE TOUCH.
3. DUST THE SCREEN - GET ALL THE SURFACE DUST OFF THE SCREEN BY USING COMPRESSED AIR OR A RUBBER DUSTING BULB.
4. LIGHTLY WIPE THE SCREEN WITH A CLEAN AND DRY MICROFIBER WIPE. AVOID MAKING CIRCULAR "BUFFING" STOKES. CLEAN WITH A SLOW AND LIGHT TOUCH MOVING IN AS BROAD A MOTION FROM LEFT TO RIGHT.

NEVER USE ALCOHOL OR AMMONIA-BASED CLEANING FLUID ON YOUR SCREEN OR APPLY CLEANING FLUID DIRECTLY TO THE SCREEN

ADVANCED TIPS

FOR STUBBORN RESIDUES OR EXTRA CLEANING POWER LIGHTLY DAMPEN THE WIPE WITH DISTILLED WATER.

NOTE: WIPE SHOULD FEEL WET TO THE TOUCH BUT NOT SO DAMP THAT ANY WATER CAN BE WRUNG OUT OF IT.
