

CapSure® – LP Edge

Bordered Sealed Edge Cleanroom Laundered Wiper 100% Polyester Knit

CapSure®–LP Edge is a 4-side sealed edge cleanroom laundered wiper that has been specially engineered for superior surface cleaning ability. A patented (#8,431,497) surface treatment allows the wiper to capture and retain particulate contamination, resulting in more efficient

cleaning and reduced likelihood of cross contamination of critical surfaces. CapSure®–LP Edge has the high level of cleanliness and abrasion resistance required for ISO Class 3 and above environments and applications requiring critical control of contaminants.

Key Attributes

- Patented surface treatment captures and retains particulate contamination, Patent #8,431,497
- 100% continuous filament polyester knit
- 4-side sealed border
- Laundered and packaged in Berkshire's ISO Class 4 cleanroom

Benefits

- Critically low particles, fibers and extractables
- 4-side border sealed edges increase durability and minimize fiber and particle release during use
- Airborne particle release 80% lower than competitive particle attraction wipers
- Captures 42 times more particles than competitive (untreated) wipers
- Retains 93% of particles captured
- Excellent combination of cleanliness, absorbency and abrasion resistance
- Immediate adsorption of liquids for efficient spill clean-up
- Steam autoclavable for use in aseptic environments

Applications

- Designed for use in ISO Class 3 and higher cleanroom environments
- Designed for the highest level of contamination control in critical processing applications
- Oxidation, Metallization, CVD or Photolithography processes
- Chamber cleaning and CMP processing
- Stencil and other print roll cleaning applications
- Steam autoclavable for aseptic applications
- Cleaning of medical device products
- Applying and removing cleaning and disinfecting solutions

Other Class 3 and above wipers

- MicroSeal SuperSorb®
- UltraSeal® 3000
- MicroSeal® 1200
- ValuSeal® LP
- ValuSeal® HA
- ValuSeal® 1500

Value Pack Option

The value pack option provides the same great performance in a more economical bulk packaging format.

Notes:

- Technical data represented in this table are typical values at the time of publication. These should not be used as product specifications.
- Due to differences in test methods applied and equipment utilized by different wiper manufacturers, valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions
- Third party testing can be performed upon request
