

Designed for critical cleaning tasks in cleanrooms and controlled environments, such as cleaning floors, walls, and ceilings, the BCR® Flat Mop systems - which replicate wiping - provide an effective and efficient way to keep your environment clean. With easy-to-use functionality, such as a lock and release jaw and the flat mop V-shape, mop hardware slips smoothly into the pouches of the mop. With accessories such as our telescoping handles, the mop system offers flexibility and maneuverability, especially when cleaning ceilings or other large surfaces. The BCR® Flat Mop systems provide application versatility solutions to help you achieve cleaning protocols.

Ergonomic Flat Mop Holder: BCRVSMOP10, BCRVSMOP1

The Ergonomic 16" Flat Mop holder is a versatile flat mop suitable for almost all application areas. Your clean room staff can attach mops faster and more efficiently than ever. Thanks to the cleanroom flat mop's V-shape, it slips smoothly into the pouches of the mop, reducing bending and decreasing injury.

Benefits:

- Easy insertion of the holder into the pouches of the mop due to the V-shape design
- Ergonomic design includes push-button opening of the holder to release and discard soiled mops without direct handling
- Optimum contact of the holder with the surface being cleaned for excellent particle removal
- Lightweight design makes it ideal for cleaning walls and ceilings
- Extremely maneuverable and smooth-running holder
- Autoclavable (recommended 121°C for 30min), except for wiper clips*
- Detachable wiper clips allow the use of disposable mop wipers in addition to the foam or nonwoven mop covers. Replacement clips are also available (BCRVSClip20)
- Can be used with the BCRHANDLE10 and BCRHANDLE1

**Remove yellow detachable clips prior to autoclaving. The clips are not autoclavable but can be sterilized with a liquid sterilant (bleach, SporKlenz, etc.)*

BCR[®] FLAT MOP SYSTEM

Telescopic Handles: BCRHANDLE Series

Made from durable anodized aluminum with a polypropylene grip, these telescoping handles are ideal for cleaning hard-to-reach areas such as ceilings and walls.

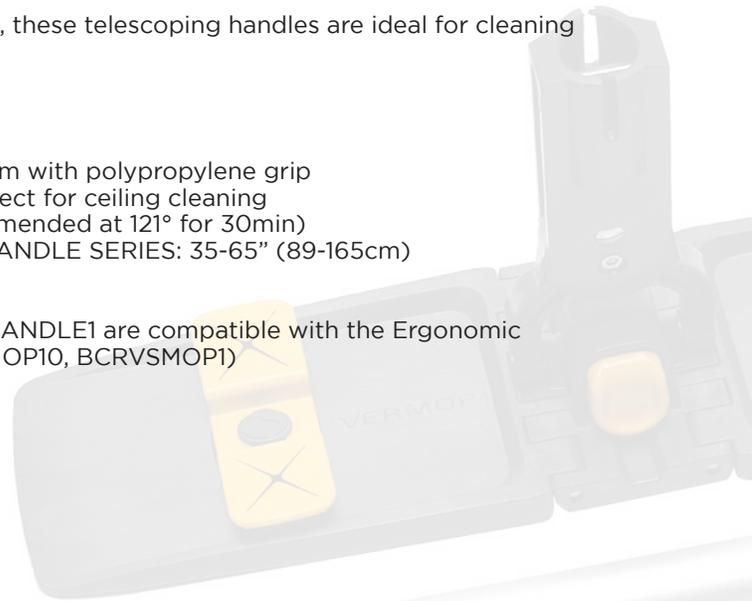

Benefits:

- Durable anodized aluminum with polypropylene grip
- Light weight makes it perfect for ceiling cleaning
- Fully autoclavable (recommended at 121° for 30min)
- Telescoping length: BCRHANDLE SERIES: 35-65" (89-165cm)

Mop Handle Compatibility:

- BCRHANDLE10 and BCRHANDLE1 are compatible with the Ergonomic Flat Mop Holder (BCRVSMOP10, BCRVSMOP1)

| Product | Number | Size | Quantity | Mop Head Compatibility |
|--|-------------|----------|-------------|------------------------|
| Telescoping Aluminum Handle | BCRHANDLE10 | 89x165cm | 10 per case | BCRVSMOP10, BCRVSMOP1 |
| Individual Telescoping Aluminum Handle | BCRHANDLE1 | 89x165cm | 1 per case | BCRVSMOP10, BCRVSMOP1 |

BCR[®] Flat Mop Cover, Microfiber (MF): FMCMF24, FMCMF24IR

The BCR[®] Flat Mop Cover MF replicates wiping, the most effective way to clean a surface. This microfiber cover has high absorbency with low fiber shedding and captures and removes contaminants on uneven and smooth surfaces during cleaning. Berkshire's flat-mop system is also easy to use, highly effective and quick.

Benefits:

- Made with a 100% knitted microfiber polyester outer layer and multiple 100% nonwoven polyester inner layers to provide superior absorbency and cleanliness
- All edges are over-edge stitched for reinforcement and to prevent fiber shedding
- Excellent absorbency capacity (>3x the weight of mop cover) improves overall cleaning efficiency
- The microfiber mop surface provides higher efficiency removal of contaminants during the cleaning process
- Use with Berkshire's Flat Mop Head or can be used with alternative flat mops
- Autoclavable (recommended 121°C for 30min)

Applications:

- Suitable for cleaning walls, ceilings, and floor areas in the cleanroom and controlled environments
- Compatible with most cleaning solutions, disinfectants, chemicals, and solvents
- Spill control use
- Dispose after single use or wash & reuse in gray areas

BCR[®] FLAT MOP SYSTEM

BCR[®] Flat Mop Cover, Polyester (PET): FMCPET20, FMCPET20IR

Efficient cleaning of floors, walls, and other large surfaces is critical to the overall cleanliness of the production environment. Berkshire's BCR[®] Flat Mop Cover PET replicates wiping, the most effective way to clean a surface. This laundered 100% polyester mop cover provides high tear strength, superior absorbency, and low fiber shedding, designed to capture and remove contaminants during your daily cleaning process. Berkshire's flat-mop system is also easy to use, highly effective and quick.

Benefits:

- Made with a 100% knitted polyester outer layer and multiple 100% nonwoven polyester inner layers to provide superior absorbency and cleanliness
- All edges are bound for reinforcement, durability, and extremely low fiber shedding
- Designed for the capture and removal of contaminants during the cleaning process with high tear strength
- Excellent absorbency capacity (>3x the weight of mop cover) improves overall cleaning efficiency
- The smooth knitted polyester mop surface provides excellent dispersal of disinfectant
- Use with Berkshire's Flat Mop Head or can be used with alternative flat mops
- Autoclavable (recommended 121°C for 30min)

Applications:

- Suitable for cleaning walls, ceilings, and floor areas in the cleanroom and controlled environments
- Compatible with most cleaning solutions, disinfectants, chemicals, and solvents
- Spill control use
- Dispose after single use or wash & reuse in gray areas
