DATA CENTER CLEANING SOLUTIONS

Berkshire
ENGINEERED CLEAN

As a leader in advanced substrate technologies, Berkshire's expertise lies in understanding the demands of our end-users and contract cleaning customers. This understanding is essential for delivering effective solutions through our quality products to meet the stringent needs of Data Center, Cleaning, and Maintenance environments.

Our clean and controlled environment product solutions are ideal for the preparation, cleaning, and maintenance of sensitive infrastructure, including:

- Servers
- Storage Systems
- Networking Equipment

- Cooling Systems
- Power Infrastructure
- Security Systems

We offer options and expertise that help you clean and maintain your facility optimally, ensuring the protection of your equipment and infrastructure.

- Wipers
- Swabs

- Ergonomically Engineered Mopping and Bucket Systems

Unsure of what solutions you need? At Berkshire, we are committed to helping you. Our Regional Sales Managers are ready to assist you in choosing the ideal products for your specific needs. Contact us today to learn how we can help you.

By partnering with you, Berkshire strives to find the right solution for your cleaning requirements, valuing your expertise and input.

Product Solutions to Protect Your Infrastructure

Berkshire's cleaning products are specifically designed to meet the stringent requirements of data center customers. Our low-lint wipes - both dry and pre-saturated with IPA/DI - alongside specialized polyester and foam swabs, ensure exceptional cleaning. Our versatile mopping systems cater to both small and large environments. Partner with Berkshire to enhance your cleaning operations, maximize efficiency, and maintain the highest standards of cleanliness in your facility.
