

BCR[®] All-in-One Stainless Steel Mop Cart System

The BCR[®] All-in-One Stainless Steel Mop Cart System prioritizes user convenience. Constructed from durable, corrosion resistant stainless steel, it is ideal for high-traffic areas and environments where sanitation is essential. Its versatile design facilitates easy setup and effective cleaning. The sturdy frame navigates effortlessly into tight spaces, complemented by a lightweight mop head designed for specific cleaning tasks, such as those in cleanrooms or healthcare facilities.

Key Features:

Cost: This system is comprehensive and does not require purchasing additional parts or accessories for your cleaning needs.

Durability: Constructed from stainless steel, the mop cart system is resistant to rust and corrosion, ensuring longevity.

Cleanroom Suitability: The multiple-bucket system, which is chemical resistant, enhances the efficiency of cleaning and disinfecting processes. It ensures that solutions stay uncontaminated and undiluted during use.

Versatile Design: This modular system supports various mop cart configurations, efficiently managing different cleaning tasks.

Easy Maintenance: The system is easy to wipe down and sanitize.

Maneuverability: Designed for tight spaces, it can reach corners and hard-to-reach areas.

Hands-free: Touchless loading and unloading of mop covers.

Autoclavable: The telescopic handle can be disassembled for easy autoclaving (recommended 121°C, 30 minutes).

Applications:

It is ideal for mopping floors, walls, and ceilings, in cleanrooms, hospitals, food processing facilities, laboratories, and industrial settings.

Compatible Mop Covers

Choose from a variety of mop covers compatible with the BCR® All-in-One Stainless Steel Mop Cart System, each designed for efficient cleaning of floors, walls, and other large surfaces critical to the overall cleanliness of the production environment.

BCR® Flat Mop Cover Microfiber (MF) Composition and Advantages

- Made with 100% knitted microfiber polyester outer layer and multiple 100% nonwoven polyester inner layers to provide superior absorbency and cleanliness
- All edges are over-edge stitched for reinforcement and to prevent fiber shedding
- Excellent absorbency capacity (>3x weight of mop cover) improves overall cleaning efficiency
- The microfiber mop surface provides higher efficiency removal of contaminants during the cleaning process
- Use with Berkshire's Flat Mop Head or can be used with alternative flat mops
- Autoclavable (recommended 121°C for 30min)

Order Information:

Product	Number	Size	Covers/Pk	Pks/Cs	Style
Flat Mop Cover MF	FMCMF24	16x5" (40x12cm)	5	24	Stacked
Flat Mop Cover MF, Irradiated	FMCMF24IR	16x5" (40x12cm)	5	24	Stacked

BCR® Flat Mop Cover Polyester (PET) Composition and Advantages

- Made with 100% knitted polyester outer layer and multiple 100% nonwoven polyester inner layers to provide superior absorbency and cleanliness
- All edges are bound for reinforcement, durability and extremely low fiber shedding
- Designed for the capture and removal of contaminants during the cleaning process with high tear strength
- Excellent absorbency capacity (>3x weight of mop cover) improves overall cleaning efficiency
- The smooth knitted polyester mop surface provides excellent dispersal of disinfectant
- Autoclavable (recommended 121°C for 30min)
- Use with Berkshire's Flat Mop Head or can be used with alternative flat mop
